

CUBA EXECUTES FOUR MORE AS CIA AGENTS

HAVANA, Cuba, Nov. 12 (UPI)

—Four more Cubans were executed by Castro firing squads today as Central Intelligence agency agents. The executions brought to nine the number of "CIA agents" who have faced firing squads in less than a week. Five men were executed last Friday. All were Cubans.

The official announcement said they were captured while trying to sneak ashore from an armed boat which sailed from Marathon, in the Florida keys, on an undisclosed date.

The government charged the four men were captured by air force personnel when their boat, armed with a 20-mm. cannon, was intercepted near the Cuban coast. The men were said to have leaped overboard and tried to escape but were seized. Their equipment was said to include carbines, machine guns, and .45-caliber pistols.
